

FreeCam User Manuel

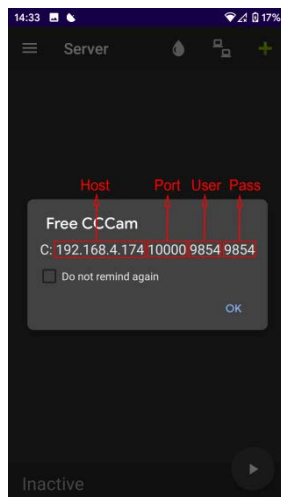

Freecam is a powerful function and easy to watch encrypted programs free APP.

1. First, make sure that the mobile network and set-top box (Support cccam) are in the same network segment.

2. Open the app (make sure that all the permissions required by the app are opened, and the background operation needs to be opened), the cccam account password and other information will pop up automatically. Then input the corresponding account information on the set-top box and connect OK to watch the encrypted program

3. Interface and function introduction:

1). After entering the app, free cccam will pop up. At this time, you need to input the corresponding cccam host, port, username, password in your set-top box, and then connect the account.

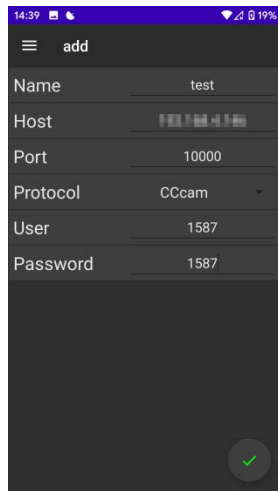

When the connection is successful, the connection icon in the upper right corner of the app will turn green.

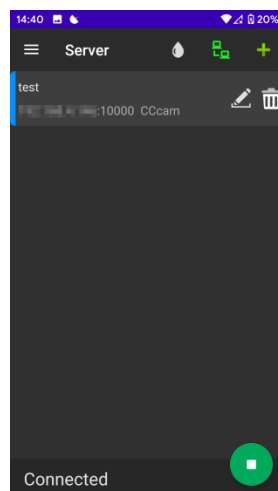

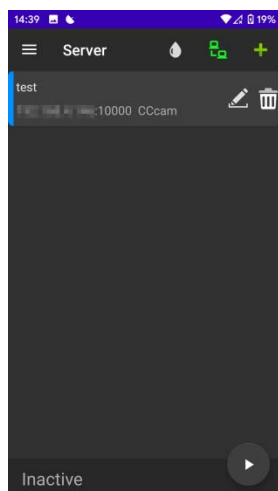

Then you can watch the encrypted programs supported by freecam.

New users can get 100 Credits , and watching encrypted channels will consume Credits appropriately.

2). If you want to log in to your cccam account, click the  icon in the upper right corner.

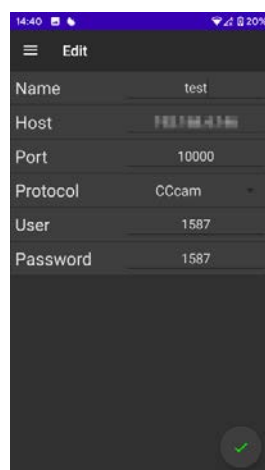

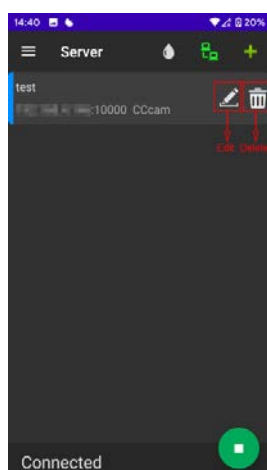

After adding, you will enter the server and click the start icon at the bottom right.

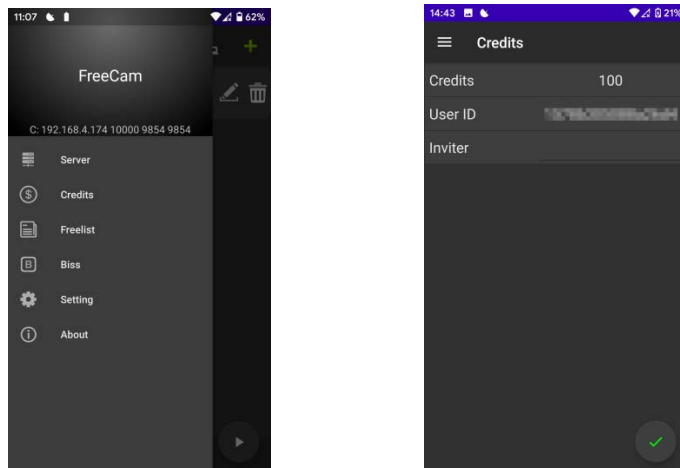

The connection was successful.

If you use your own cccam account to watch the corresponding encrypted program, it will not consume Credits.

3). Edit & delete account

4). Credits: new users give 100 Credits.

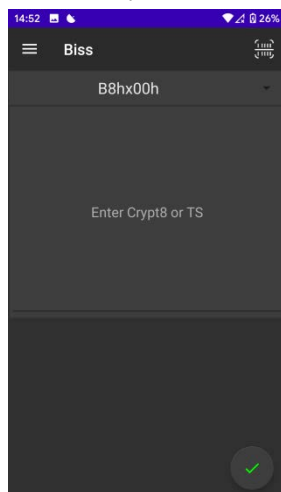

If they want to get more Credits Invite a new user can get a reward of 100 Credits (unlimited number of times), and you can also be invited once. The method of invitation is to tell other people your user ID, and then the person enters your ID in the inviter and confirms it. In this way, you can get 100 Credits.

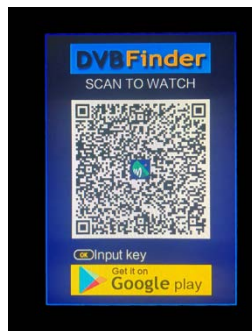

5). Freelist:FreeCam List of TP supporting decryption.

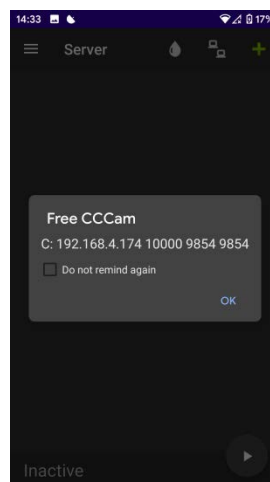

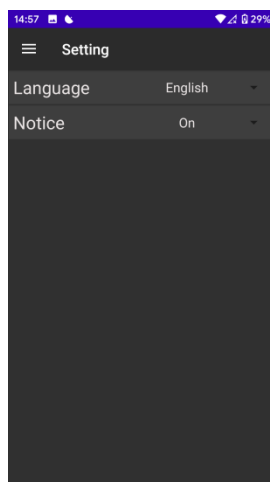

6). BISS: input the corresponding value to automatically calculate bisskey

The code scanning function in the upper right corner can only be used on hellobox series set-top boxes.

7). Setting: language, and the option to open the prompt box of app.

8). About
